# Foreword

Dear Doctors,

Greetings from Intas Pharmaceuticals Ltd!

At the outset, I would like to take this opportunity to express our heartfelt gratitude to Prof. (Dr.) M B Agarwal for the exclusive collaboration of upcoming Best of ASH scheduled from 18th to 23rd January 2021. I salute Prof. (Dr.) M B Agarwal for his untiring and relentless efforts in driving continuous academic initiatives since last four decades benefitting thousands of clinicians with recent scientific knowledge.

Best of ASH features the top experts in the field, comprehensive clinical content, and the opportunity to interact with colleagues – all through a virtual experience this year. Participation in this virtual experience will grant every student and clinician an opportunity to hear experts present cutting-edge scientific data, provide out-of-the-box treatment approaches, and will answer challenging patient care questions.

Best of ASH would offer a galaxy of international faculties who are thought leaders in their respective fields of Benign and Malignant Haematology. A golden opportunity not to be missed for any clinician practising haematology. The 6-day 3-hour daily innovative meeting format allows an in-depth coverage of the topic and addresses queries of clinicians during Q & A session.

I would express my best wishes for the grand success of 'Best of ASH'. This scientific endeavour eventually will benefit the patients.

With warm personal regards
