

**" Laboratory Medicine: Creating Value for Patients".**

It is our pleasure to invite you to participate in the XXXIII World Congress of the World Association of Societies of Pathology and Laboratory Medicine (WASPaLM), in Laboratory Medicine (WASPaLM), together with the XXIV Congress of the Turkish Society of Clinical Biochemistry (TSCB), to be held on October 16-20, 2024, Granada Congress Center, Belek, Antalya - Turkey.

WASPaLM has as its main objective to improve health worldwide by promoting teaching and practice in all aspects of pathology and laboratory medicine. The contribution, recent advances and future directions in pathology and laboratory medicine are included in the Congress theme: Laboratory Medicine: Creating Value for Patients.

As a worldwide scientific association, WASPaLM proposes that its congresses be those of all its constituent scientific societies and associations. With this spirit, we invite you to participate, with your symposium, your residents, who are our future, in 3rd Meeting of Resident Physicians, with the challenge of scientific work, with ideas and proposals from all, for the development of our WASPaLM, which we deeply appreciate.

The joint WASPaLM and TSCB Congress will have several simultaneous halls and a wide technical scientific exhibition, to unite scientifically, academically and socially all Clinical Pathologists, Pathologists and Clinical Laboratory Professionals of the World. For which we have chosen the beautiful city of Antalya, between the Taurus Mountains and the Mediterranean Sea, easily accessible, with air connectivity to all over the world. Its quality of life and friendliness will allow us to enjoy a pleasant stay.

Looking forward to seeing all of us in Antalya, Turkey in October 2024.

Best regards,  
Prof. Dr. Roberto Verna  
President Elect WASPaLM

Prof. Dr. Walter Alallon  
President WASPaLM
